2. Reason

Our basic dividend distribution policy is to maintain stable dividend payments at appropriate levels in accordance with mid- to long-term corporate performance. On the other hand, however, internal reserves are also an important factor to be considered for future business development and reinforcement of financial health. We will determine dividends taking into consideration all such factors.

As a result of careful consideration of both the amount of net income and the aforementioned basic dividend distribution policy, we have determined that the year-end dividend per share for the current fiscal year is 25.00 yen.
