Impact of the February 13 Earthquake in the Coast of Fukushima Prefecture on NOK Operation

NOK Corporation would like to inform you of the impact of the earthquake off the coast of Fukushima Prefecture, which occurred on February 13, 2021, on our operation as follows.

We confirmed no serious casualties at NOK Group offices and affiliate companies.

There was no major damage to the buildings at the factories in Fukushima and Miyagi areas.

We are currently inspecting the production equipment and facilities to determine the extent of damage.

We will make further announcements as more information becomes available.
